

# MOZZI - HUB - CUBOS PARA VOLANTE

I mozzi sparco collassabili sono costituiti da una fusione in ghisa e da un telaio in acciaio che letteralmente collassa in caso d'urto garantendo l'assorbimento dell'energia cinetica non trasferendola al pilota. I volantini sparco sono omologati TÜV esclusivamente se abbinati ai mozzi Sparco.

Sparco collapsible hubs are cast iron made with a steel frame that collapse during impacts. This item absorbs kinetics energy avoiding transfer to the driver. The Sparco steering wheels are TÜV approved only if coupled with the Sparco hubs.

Los adaptadores Sparco son colapsable y están compuestos por un chasis de fundición de acero que en caso de impacto absorbe la energía cinética evitando que se transmita al piloto. Los volantines Sparco cumplen la homologación TÜV solo si están montados conjuntamente con los adaptadores Sparco.

## NOTE:

a = prelevare dal volante di serie il contatto clacson

Take off clacson contact from original steering wheel

b = adatto solamente a vetture con Air Bag di serie - Fit to airbag cars only

c = adatto solamente a vetture senza Air Bag - Fit to cars without airbag only

d = prelevare dal volante di serie il devio sgancio

take off "lights", "windscreen wiper" and "direction indicator" from original steering wheels

e = adatto solamente a vetture dotate di modulo integrato EPS

Fit to EPS equipped cars only

## LEGENDA:

N = mozzo normale senza sistema di collassamento

Normal hub without collapsible system

C = mozzo collassabile - Collapsible system

Mc = mozzo collassabile specifico per vetture con sistema Air Bag

Collapsible hub for airbag vehicles
